## CREATING REPOSITORY IN IBM CLOUD:

## UPLOAD IMAGE TO IBM CONTAINER REGISTRY:

The screenshot shows the IBM Cloud Container Registry interface. On the left is a sidebar with navigation links: Container Registry, Quick start, Namespaces (1), Repositories (1), Images (1), Trash (0), and Settings. The main area is titled 'Repositories' and features a 'Location' dropdown set to 'Global'. Below this is a search bar and a 'Create' button. A table lists the repositories, with one entry visible: 'ibmproj' in the 'myproj' namespace, containing 1 image and updated 4 days ago. The table has columns for Name, Image count, Namespace, and Last updated. At the bottom, there are pagination controls showing '1 of 1 page'.
